"The Unwanted One" evidences a trait that is not explained on dramatic grounds wholly. It smacks so strongly of a propaganda on be-half of a more lenient immigration statute toward the Chinese that one wonders whether a Young hins Re-form Association or some similor organization proposes to flood our stages with similar plays in the next few seasons. The cast that has been selected for interpreting the Halsey-Beranger theme is a competent one in the main, though the authors have handicapped a number of the parts with the most inexplicable contradictions of character — contradic-tions so valueless and glaring that can only be ascribed to gree of cocksureness in authorship. evils of some rather obviously unintelligent direction, the cast struggles most successfully with its evening's work.

Since it was first seen in Washington, "Dear Brutus" h ansejoyed a prosperous tour and in the interim the finer details of the quaint fairy theme have been rounded out, its subtle comedy points fully developed and the net result is an exceptionally smooth running performance with uniformly capable interpretations.

"Dear Brutus" is a play of what might have been. Somewhere in the North England country there is a legend that once in every year. on Midsummer night, a strange forest appears, sometimes in one place, sometimes in another, and that those who go into it will have for a few hours the life they might have lived if, at some crucial time in their past, they had chosen the "other turning" instead of the one they did. And thus they have. for this one night, a Second Chance. A queer old Puck of a man who lives in this region conceives the idea of inviting some guests to his house at just this time of year, and seeing just what happens to them when the Second Chance is given to them in the enchanted wood. And not only does the old man, Lob, gratify his whimsical curiosity, but seemingly mismated couples in their brief eerie journey find "What Might Have Been" sometimes better, sometimes worse than their mortal existence.

For William Gillette, the big moments come in the mythical wood where he has craved for opportunity to lavish to the full a noble affection upon his own offspring, Margaret. The realization of his yearning and the depths of a sublime love were portrayed with the finesse and masterly skill of the accomplished actor. Gillette was seen at his best

n a purely sentimental role. The star shares his triumphs with Madge Bellamy, a wistful and elfin sprite whose mischievous moods and childlike innocence make "Marga-ret" creep into the heart and find a welcoming niche. In the original company Helen Hayes, whose name now flickers in the electric bulbs, made this part pre-eminent. Gillette has been fortunate in his alliance with Miss Bellamy, for a sweeter and more convincing por-trayal would be difficult. Her moment of parting in the wood was a finished piece of acting, and its appreciation was evidenced by a round of curtain calls. On her performance last night, one can predict much for her histrionic future. Of the other players, Thomas A. Braidon makes an amusing and fickle Mr. Purdie. For the removal of wrinkles, bagginess of cheeks and chin, the saxolite formula, which goes to the foundation of these troubles, seems to have come into general use since its virtues became known several years ago, One ounce of powdered saxolite, procurable at any drug store, is dissolved in a half pint witch hazel.
